In [redacted] statement, he states that "On June 14, 2026, at approximately 2:00 p.m. I was notified by Asset Protection Investigator [redacted] that there were two female subjects with an infant that had just concealed merchandise on their person without rendering payment. We observed them through the store. At the front end they paid for only a box of diapers but did not pay for any of the other merchandise. We both initiated contact with the subjects past the last point of sale in order to make a stop in regard to shoplifting. The two women then fled on foot to their vehicle. We alerted officers from Senatobia Police Department and Tate County Sheriff Department who were already on the scene in regards to a separate incident. The police approached them on foot while the two subjects were already in their vehicle. The subjects threw the vehicle in reverse and struck several other parked cars, then they drove forward quickly and from my vantage point, appeared to strike at least one officer with the

In [redacted] statement, he states that "I, Asset Protection Investigator [redacted] was making a shoplifting stop on the two unknown subjects. While attempting to complete the stop the unknown subjects decided to run to their vehicle. Due to officers being here in the office for another incident, I notified them that the subjects were running. Officers got in pursuit to stop the subjects and vehicle. The two unknown subjects did not stop and tried to flee the premises. Due to fleeing and almost hitting officers, shots were fired."

I have been contacted by the Mississippi Bureau of Investigation which is undertaking a criminal investigation of the incident in question which has received wide media speculation and statements from civil rights plaintiffs' attorneys.

As much as I would like to set the record straight, upon advice of counsel, I am not allowed to make any statements surrounding the incident of June 14, 2026.

I would respectfully ask that this statement, executed by me, be placed in the administrative investigation file.

On Sunday, June 14, 2026, myself as well as two other officers and two Tate County deputies were with Walmart loss prevention investigating an unrelated incident. While reviewing camera footage in the loss prevention office, the loss prevention officers began yelling that two female suspects were running from them. The other officers and I on scene got up and ran towards the front exit door of Walmart where the loss prevention officers were pointing us towards a grey ford fusion parked directly ahead of us in the parking aisle. Loss prevention officers were pointing at the vehicle and yelling to us that the two suspects who had just shoplifted were entering that vehicle. I and the other officers ran through the parking lot to the suspect vehicle. We began giving the driver commands to stop and open the door. At that time, the driver put the vehicle in reverse and accelerated backwards extremely fast, turning the front of the vehicle directly into the path of where officers were standing.

The suspect vehicle then rammed into another vehicle in the parking lot. With our weapons drawn, we continued to give the driver commands to stop. I could see the outline of the

driver in the driver's seat as the vehicle was facing directly in line where I and the other officers were standing. The driver then put the vehicle in drive and immediately accelerated in the direction of myself and a deputy beside me. Before I could get out of the path of the suspect vehicle, the vehicle was already striking me and the deputy to my right. I kept my pistol sights on the silhouette of the driver and fired my service weapon.

The conduct of the driver of the vehicle in attempting to escape and crashing into cars and then putting the car in drive and charging directly at the officers, including myself, placed me in fear of imminent death or serious bodily injury of myself, the other officers, and the public. In utilizing my experience and training, I fired my service weapon in order to neutralize the threat posed by the speeding vehicle being operated by the unknown driver. After firing my service weapon, the driver of the vehicle departed at a high rate of speed."

Activity Type: Email from TCSO Regarding Axon Body Camera Recording Features

On Wednesday, July 8, 2026, at 11:43 a.m., I received an email from Tate County Sheriff's Office (TCSO) Major Matt Wilson (WILSON). WILSON stated in the email that he had contacted Axon Account Executive Evan Llanes (LLANES) and asked if there was any way Axon could recover body camera footage from a body camera that was not activated on scene but was powered on. LIANES told WILSON that there is a setting that allows the camera to retain footage from before activation. However, that feature is not enabled for our department. Because the features are not activated, they cannot recover any body camera footage.
